

## Datadog Launches New Data Center in Japan

April 19, 2023

*With the opening of the data center, Datadog customers and partners can store their data in Japan and meet local data residency requirements and preferences*

NEW YORK, April 19, 2023 /PRNewswire/ -- [Datadog](#), Inc. (NASDAQ: DDOG), the monitoring and security platform for cloud applications, today announced the launch of its new data center. Located in Tokyo, Japan, the data center is Datadog's first in Asia and adds to existing locations in the United States, Europe and [AWS GovCloud](#).

The new data center in Japan will store and process data locally and help Datadog and its customers comply with local data privacy and security regulations. All existing Datadog products [will be available](#) with the new data center.

"Our customers in Japan are undergoing rapid digital transformation and we are committed to providing them the same service we provide in other regions, while also complying with local regulations. Our new data center in Tokyo will provide our customers fast, low latency observability and security for their hybrid-cloud environments, while keeping their data in Japan," said Amit Agarwal, President at Datadog.

### About Datadog

Datadog is the observability and security platform for cloud applications. Our SaaS platform integrates and automates infrastructure monitoring, application performance monitoring, log management, real-user monitoring, and many other capabilities to provide unified, real-time observability and security for our customers' entire technology stack. Datadog is used by organizations of all sizes and across a wide range of industries to enable digital transformation and cloud migration, drive collaboration among development, operations, security and business teams, accelerate time to market for applications, reduce time to problem resolution, secure applications and infrastructure, understand user behavior, and track key business metrics.

### Forward-Looking Statements

This press release may include certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended including statements on the benefits of new products and features. These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Actual results may differ materially from those described in the forward-looking statements and are subject to a variety of assumptions, uncertainties, risks and factors that are beyond our control, including those risks detailed under the caption "Risk Factors" and elsewhere in our Securities and Exchange Commission filings and reports, including the Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 24, 2023, as well as future filings and reports by us. Except as required by law, we undertake no duty or obligation to update any forward-looking statements contained in this release as a result of new information, future events, changes in expectations or otherwise.
