

Datadog Named a Leader in AIOps by Independent Research Firm

April 15, 2025 at 12:00 PM EDT

Datadog received the highest score possible in multiple criteria, including innovation, log management, data governance and lineage, cloud and infrastructure, APM, and more

NEW YORK – [Datadog](#), Inc. (NASDAQ: DDOG), the monitoring and security platform for cloud applications, today announced it has been named a Leader in *The Forrester Wave™: AIOps Platforms, Q2 2025*. Datadog's AIOps solutions include [Bits AI](#), [Watchdog](#) and [Event Management](#).

As part of its evaluation, Datadog received the highest scores possible in the following criteria: innovation, log management, data governance and lineage, cloud and infrastructure, application performance management, service map maintenance, digital experience monitoring, incident/service disruption detection/mitigation, data-driven automation and remediation, and collaboration, knowledge sharing and enrichment.

According to the Forrester report, "Superior data governance and lineage positions Datadog well for continued growth, along with its Observability Graph to map relationships between Services." The report also added, "Clients seeking to drive efficiency and effectiveness through the convergence of their development and operations teams, with AI at its core, will find

Datadog to be the right partner."

"Organizations' tech stacks have become increasingly distributed and complex as they generate massive amounts of data. Datadog's AIOps capabilities make sense of this data by reducing noise so teams can direct their attention to the right places and take action on meaningful alerts," said Michael Whetten, VP of Product at Datadog. "By making AIOps a foundational part of our unified platform, Datadog helps DevOps teams accelerate decision making and operations to improve the performance, reliability and security of their applications."

A Forrester Wave is a guide for buyers considering their purchasing options in a technology marketplace and is based on Forrester's analyses and opinions. A Wave uses a transparent methodology to compare the players in a software, hardware or services market to help end-user organizations make informed purchasing decisions.

About Datadog

Datadog is the observability and security platform for cloud applications. Our SaaS platform integrates and automates infrastructure monitoring, application performance monitoring, log management, user experience monitoring, cloud security and many other capabilities to provide unified, real-time observability and security for our customers' entire technology stack. Datadog is used by organizations of all sizes and across a wide range of industries to enable digital transformation and cloud migration, drive collaboration among development, operations, security and business teams, accelerate time to market for applications, reduce time to problem resolution, secure applications and infrastructure, understand user behavior and track key business metrics.

Forward-Looking Statements

This press release may include certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended including statements on the benefits of new products and features. These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Actual results may differ materially from those described in the forward-looking statements and are subject to a variety of assumptions, uncertainties, risks and factors that are beyond our control, including those risks detailed under the caption "Risk Factors" and elsewhere in our Securities and Exchange Commission filings and reports, including the Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission on February 20, 2025, as well as future filings and reports by us. Except as required by law, we undertake no duty or obligation to update any forward-looking statements contained in this release as a result of new information, future events, changes in expectations or otherwise.
