Datadog Wins 2020 AWS Public Sector Partners Award

August 5, 2020

NEW YORK--(BUSINESS WIRE)--Aug. 5, 2020-- Datadog, Inc. (NASDAQ: DDOG), the monitoring and security platform for cloud applications, today announced that it has won "Best Mission-Based Data Solution" as part of the 2020 AWS Public Sector Partners Awards. The winners were selected based on innovation of solutions to public sector customers, demonstration of Amazon Leadership Principles, engagement and success with the Amazon Web Services (AWS) Partner Network (APN), and delivery of results in a customer-obsessed way.

The 2020 AWS Public Sector Partners Awards recognizes Public Sector Partners who are customer-obsessed and delivered amazing results to our joint customers. Datadog's cloud monitoring platform was commended for how it "enables development (dev) and operations (ops) teams to work collaboratively to avoid downtime, resolve performance problems, and ensure that development and deployment cycles finish on time."

"Federal and state government agencies are modernizing their infrastructure to deliver improved citizen services," said Ilan Rabinovitch, Vice President, Product and Community at Datadog. "Datadog is committed to working with AWS to help these government organizations accelerate the pace of cloud adoption by providing the observability required to understand the true state of their digital services."

The 2020 AWS Public Sector Partner Awards event will feature interviews from award winners and their customers. Watch the 2020 AWS Public Sector Partners Awards, hosted by theCube, here.

About Datadog

Datadog is the monitoring and security platform for cloud applications. Our SaaS platform integrates and automates infrastructure monitoring, application performance monitoring and log management to provide unified, real-time observability of our customers' entire technology stack. Datadog is used by organizations of all sizes and across a wide range of industries to enable digital transformation and cloud migration, drive collaboration among development, operations, security and business teams, accelerate time to market for applications, reduce time to problem resolution, secure applications and infrastructure, understand user behavior and track key business metrics.

Forward-Looking Statements

This press release may include certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Actual results may differ materially from those described in the forward-looking statements and are subject to a variety of assumptions, uncertainties, risks and factors that are beyond our control, including those risks detailed under the caption "Risk Factors" and elsewhere in our Securities and Exchange Commission filings and reports, including the Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission on May 12, 2020, as well as future filings and reports by us. Except as required by law, we undertake no duty or obligation to update any forward-looking statements contained in this release as a result of new information, future events, changes in expectations or otherwise.
