

Datadog Achieves AWS Migration & Modernization Competency Status

November 29, 2021 at 7:45 PM EST

NEW YORK, Nov. 29, 2021 /PRNewswire/ -- [Datadog](#), Inc. (NASDAQ: DDOG), the monitoring and security platform for cloud applications, announced today that it has achieved [Amazon Web Services \(AWS\) Migration & Modernization Competency status for AWS Partners](#). This designation recognizes that Datadog has demonstrated technical proficiency and proven customer success automating and accelerating customer application migration and modernization journeys.

AWS launched the AWS Migration & Modernization Competency to allow customers to easily and confidently engage highly specialized AWS Partners that help AWS customers modernize their applications, either before or after they are moved to AWS. The AWS Migration & Modernization Competency takes on the heavy lifting of identifying and validating industry leaders with proven customer success and technical proficiency in migration and application modernization tooling.

Achieving the AWS Migration & Modernization Competency differentiates Datadog as an AWS Partner with deep domain expertise delivering software products that help customers embrace cloud and application transformation, reducing licensing costs, optimizing operational costs, and improving performance, agility, and resiliency. These tools can perform an application portfolio assessment, identifying the applications that are candidates for modernization; augment and automate developer tasks to carry out the modernization of legacy applications.

"Datadog is proud to achieve the new AWS Migration & Modernization Competency status," said Ilan Rabinovitch, Senior Vice President, Product and Community at Datadog. "Our team is dedicated to helping companies achieve their business transformation goals by providing deep visibility into AWS, on-premises and hybrid environments during every phase of a cloud migration. This visibility enables organizations to move to the cloud with greater confidence."

"The AWS Migration & Modernization Competency raises the bar again by choosing to solve the hardest challenge faced in application migration and modernization," said Bill Platt, General Manager, AWS Migration Services. "I am confident that solutions, validated by the AWS Migration & Modernization Competency, will provide a complete portfolio of migration and modernization solutions to customers and partners."

AWS is enabling scalable, flexible, and cost-effective solutions for organizations ranging from startups to global enterprises. To support the seamless integration and deployment of these solutions, AWS established the AWS Competency Program to help customers identify AWS Partners with deep industry experience and expertise.

Datadog's cloud monitoring platform brings together infrastructure metrics, application traces, log data, and synthetic monitoring, allowing organizations to improve their agility to reduce their time to market, reduce risk during the modernization of their infrastructure and applications, reduce their operational and development costs, and enable visibility across the stack for all teams and stakeholders. Datadog supports a wide range of AWS

services and is a member of the AWS Partner Network (APN).
