#### **CURRENT REPORT** Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): August 8, 2024

# Datadog, Inc.

(Exact name of Registrant as Specified in Its Charter)

Delaware

(State or Other Jurisdiction of Incorporation)

001-39051 (Commission File Number)

620 8th Avenue, 45th Floor New York.

(Address of Principal Executive Offices)

27-2825503 (IRS Employer Identification No.)

10018 (Zip Code)

(866) 329-4466 (Registrant's Telephone Number, Including Area Code)

Not Applicable (Former Name or Former Address, if Changed Since Last Report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425) 

Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

NY

Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

_	Title of each class	Trading Symbol(s)	Name of each exchange on which registered
-	Class A Common Stock, par value \$0.00001 per share	DDOG	The Nasdaq Stock Market LLC
Class A Common Stock, par value 50.00001 per share	DDOG	(Nasdaq Global Select Market)	

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company  $\Box$ 

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.  $\Box$ 

#### Item 2.02 Results of Operations and Financial Condition.

On August 8, 2024, Datadog, Inc. (the "Company") issued a press release announcing its financial results for the quarter ended June 30, 2024. A copy of the press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

The information contained in this Item 2.02, including Exhibit 99.1 hereto, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing made by the Company under the Securities Act of 1933, as amended, or the Exchange Act, regardless of any general incorporation language in such filings, unless expressly incorporated by specific reference in such filing.

## **Datadog Announces Second Quarter 2024 Financial Results**

August 8, 2024

#### Second quarter revenue grew 27% year-over-year to \$645 million

Strong growth of larger customers, with about 3,390 \$100k+ ARR customers, up from about 2,990 a year ago

#### Announced general availability of LLM Observability

## Announced innovations for Generative AI, Observability, Cloud Security, Product Analytics, Software Delivery, and Cloud Service Management at DASH 2024

NEW YORK-- Datadog, Inc. (NASDAQ:DDOG), the monitoring and security platform for cloud applications, today announced financial results for its second quarter ended June 30, 2024.

"Datadog executed well in the second quarter, with 27% year-over-year revenue growth, continued customer growth, and expanding multi-product adoption across our platform," said Olivier Pomel, co-founder and CEO of Datadog.

Pomel added, "At our DASH 2024 user conference, we announced dozens of new products and capabilities, delivering innovations to help our customers observe their environments, secure their infrastructures and workloads, and act to remediate problems before they affect users."

## Second Quarter 2024 Financial Highlights:

- Revenue was \$645 million, an increase of 27% year-over-year.
- GAAP operating income was \$13 million; GAAP operating margin was 2%.
- Non-GAAP operating income was \$158 million; non-GAAP operating margin was 24%.
- GAAP net income per diluted share was \$0.12; non-GAAP net income per diluted share was \$0.43.
- Operating cash flow was \$164 million, with free cash flow of \$144 million.
- Cash, cash equivalents, and marketable securities were \$3.0 billion as of June 30, 2024.

## Second Quarter & Recent Business Highlights:

• As of June 30, 2024, we had about 3,390 customers with ARR of \$100,000 or more, an increase of 13% from about 2,990 as of June 30, 2023.

- Announced that Yanbing Li joined as Chief Product Officer. Li has more than 25 years of product, technology and engineering experience, having led global engineering, operations and infrastructure teams at Aurora, Google and VMware.
- Announced that David Galloreese joined as Chief People Officer. Galloreese has more than 20 years of human resources experience at tech companies and large-scale, high visibility brands, like Figma, Wells Fargo, and Walmart.
- Announced new additions to our security product portfolio, including Agentless Scanning, Data Security and Code Security, which allow security teams to easily secure their code, cloud environments and production applications.
- Announced the launch of Live Debugger, a new tool that enables developers to step through code in production environments and find the exact root cause of coding errors.
- Announced a unified experience integrating the Datadog Agent and OpenTelemetry Collector. With this announcement, customers can use Datadog's fully supported Agent while accessing the complete capabilities of the OpenTelemetry Collector; onboard quickly using the existing collector configuration; and centralize the management of collectors remotely all while benefiting from Datadog's reliability and global support team.
- Announced Log Workspaces, a suite of capabilities in a powerful, collaborative space that allows analysts and engineers from all teams in an organization to connect logs and other datasets, and build multi-stage queries that allow for sophisticated analytics to answer complex questions on business, securities and application issues.
- Announced Datadog On-Call, a modern on-call experience with observability-enriched paging and seamless incident management workflows.
- Announced the general availability of LLM Observability, which allows AI application developers and machine learning
  engineers to efficiently monitor, improve and secure large language model applications.
- Announced Datadog Kubernetes Autoscaling, a set of capabilities that intelligently automates resource optimization and can automatically scale customers' Kubernetes environments based on real-time and historical utilization metrics.
- Announced the general availability of Data Jobs Monitoring, a new product that helps data platform teams and data engineers detect problematic Spark and Databricks jobs anywhere in their data pipelines, remediate failed and longrunning-jobs faster, and optimize over-provisioned compute resources to reduce costs.

- Announced the general availability of Datadog App Builder, a low-code development tool that helps teams rapidly create self-service applications and integrate them securely into their monitoring stacks.
- Released its *State of Cloud Costs 2024* report. The report found organizations that use graphics processing unit (GPU) instances have increased their average spending on those instances by 40% in the last year.

#### Third Quarter and Full Year 2024 Outlook:

Based on information as of today, August 8, 2024, Datadog is providing the following guidance:

- Third Quarter 2024 Outlook:
  - Revenue between \$660 million and \$664 million.
  - Non-GAAP operating income between \$146 million and \$150 million.
  - Non-GAAP net income per share between \$0.38 and \$0.40, assuming approximately 360 million weighted average diluted shares outstanding.
- Full Year 2024 Outlook:
  - Revenue between \$2.62 billion and \$2.63 billion.
  - Non-GAAP operating income between \$620 million and \$630 million.
  - Non-GAAP net income per share between \$1.62 and \$1.66, assuming approximately 360 million weighted average diluted shares outstanding.

Datadog has not reconciled its expectations as to non-GAAP operating income, or as to non-GAAP net income per share, to their most directly comparable GAAP measure as a result of uncertainty regarding, and the potential variability of, reconciling items such as stock-based compensation and employer payroll taxes on equity incentive plans. Accordingly, reconciliation is not available without unreasonable effort, although it is important to note that these factors could be material to Datadog's results computed in accordance with GAAP.

#### Conference Call Details:

- What: Datadog financial results for the second quarter of 2024 and outlook for the third quarter and the full year 2024
- When: August 8, 2024 at 8:00 A.M. Eastern Time (5:00 A.M. Pacific Time)
- **Dial in:** To access the call in the U.S., please register here. Callers are encouraged to dial into the call 10 to 15 minutes prior to the start to prevent any delay in joining.
- Webcast: https://investors.datadoghq.com (live and replay)
- Replay: A replay of the call will be archived on the investor relations website

#### **About Datadog**

Datadog is the observability and security platform for cloud applications. Our SaaS platform integrates and automates infrastructure monitoring, application performance monitoring, log management, user experience monitoring, cloud security and many other capabilities to provide unified, real-time observability and security for our customers' entire technology stack. Datadog is used by organizations of all sizes and across a wide range of industries to enable digital transformation and cloud migration, drive collaboration among development, operations, security and business teams, accelerate time to market for applications, reduce time to problem resolution, secure applications and infrastructure, understand user behavior, and track key business metrics.

#### **Forward-Looking Statements**

This press release and the earnings call referencing this press release contain "forward-looking" statements, as that term is defined under the federal securities laws, including but not limited to statements regarding Datadog's strategy, product and platform capabilities, the growth in and ability to capitalize on long-term market opportunities including the pace and scope of cloud migration and digital transformation, gross margins and operating margins including with respect to sales and marketing, research and development expenses, net interest and other income, cash taxes, investments and capital expenditures, and Datadog's future financial performance, including its outlook for the third quarter and the full year 2024 and related notes and assumptions. These forward-looking statements are based on Datadog's current assumptions, expectations and beliefs and are subject to substantial risks, uncertainties, assumptions and changes in circumstances that may cause Datadog's actual results, performance or achievements to differ materially from those expressed or implied in any forward-looking statement.

The risks and uncertainties referred to above include, but are not limited to (1) our recent rapid growth may not be indicative of our future growth; (2) our history of operating losses; (3) our limited operating history; (4) our dependence on existing customers purchasing additional subscriptions and products from us and renewing their subscriptions; (5) our ability to attract new customers; (6) our ability to effectively develop and expand our sales and marketing capabilities; (7) risk of a security breach; (8) risk of interruptions or performance problems associated with our products and platform capabilities; (9) our ability to adapt and respond to rapidly changing technology or customer needs; (10) the competitive markets in which we participate; (11) risks associated with successfully managing our growth; and (12) general market, political, economic, and business conditions including concerns about reduced economic growth and associated decreases in information technology spending. These risks and uncertainties are more fully described in our filings with the Securities and Exchange Commission (SEC), including in the section entitled "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023, filed with the SEC on February 24, 2024. Additional information will be made available in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2024 and other filings and reports that we may file from time to time with the SEC. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to

predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, we cannot guarantee future results, levels of activity, performance, achievements, or events and circumstances reflected in the forward-looking statements will occur. Forward-looking statements represent our beliefs and assumptions only as of the date of this press release. We disclaim any obligation to update forward-looking statements.

#### About Non-GAAP Financial Measures

Datadog discloses the following non-GAAP financial measures in this release and the earnings call referencing this press release: non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating expenses (research and development, sales and marketing and general and administrative), non-GAAP operating income (loss), non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net income (loss) per diluted share, non-GAAP net income (loss) per basic share, free cash flow and free cash flow margin. Datadog uses each of these non-GAAP financial measures internally to understand and compare operating results across accounting periods, for internal budgeting and forecasting purposes, for short- and long-term operating plans, and to evaluate Datadog's financial performance. Datadog believes they are useful to investors, as a supplement to GAAP measures, in evaluating its operational performance, as further discussed below. Datadog's non-GAAP financial measures may not provide information that is directly comparable to that provided by other companies in its industry, as other companies in its industry may calculate non-GAAP financial results differently, particularly related to non-recurring and unusual items. In addition, there are limitations in using non-GAAP financial measures because the non-GAAP financial measures are not prepared in accordance with GAAP and may be different from non-GAAP financial measures used by other companies and exclude expenses that may have a material impact on Datadog's reported financial results.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. A reconciliation of the historical non-GAAP financial measures to their most directly comparable GAAP measures has been provided in the financial statement tables included below in this press release.

Datadog defines non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating expenses (research and development, sales and marketing and general and administrative), non-GAAP operating income (loss), non-GAAP operating margin and non-GAAP net income (loss) as the respective GAAP balances, adjusted for, as applicable: (1) stock-based compensation expense; (2) the amortization of acquired intangibles; (3) employer payroll taxes on employee stock transactions; (4) amortization of issuance costs; and (5) an assumed provision for income taxes based on our long-term projected tax rate. Our estimated long-term projected tax rate is subject to change for a variety of reasons, including the rapidly evolving global tax environment, significant changes in Datadog's geographic earnings mix, or other changes to our strategy or business operations. We will re-evaluate our long-term projected tax rate as appropriate. Datadog defines free

cash flow as net cash provided by operating activities, minus capital expenditures and minus capitalized software development costs, if any. Investors are encouraged to review the reconciliation of these historical non-GAAP financial measures to their most directly comparable GAAP financial measures.

Management believes these non-GAAP financial measures are useful to investors and others in assessing Datadog's operating performance due to the following factors:

*Stock-based compensation.* Datadog utilizes stock-based compensation to attract and retain employees. It is principally aimed at aligning their interests with those of its stockholders and at long-term retention, rather than to address operational performance for any particular period. As a result, stock-based compensation expenses vary for reasons that are generally unrelated to financial and operational performance in any particular period.

Amortization of acquired intangibles. Datadog views amortization of acquired intangible assets as items arising from preacquisition activities determined at the time of an acquisition. While these intangible assets are evaluated for impairment regularly, amortization of the cost of acquired intangibles is an expense that is not typically affected by operations during any particular period.

*Employer payroll taxes on employee stock transactions.* Datadog excludes employer payroll tax expense on equity incentive plans as these expenses are tied to the exercise or vesting of underlying equity awards and the price of Datadog's common stock at the time of vesting or exercise. As a result, these taxes may vary in any particular period independent of the financial and operating performance of Datadog's business.

*Amortization of issuance costs.* In June 2020, Datadog issued \$747.5 million of convertible senior notes due 2025, which bear interest at an annual fixed rate of 0.125%. Debt issuance costs, which reduce the carrying value of the convertible debt instrument, are amortized as interest expense over the term. The expense for the amortization of debt issuance costs is a non-cash item, and we believe the exclusion of this interest expense will provide for a more useful comparison of our operational performance in different periods.

Additionally, Datadog's management believes that the non-GAAP financial measure free cash flow is meaningful to investors because it is a measure of liquidity that provides useful information in understanding and evaluating the strength of our liquidity and future ability to generate cash that can be used for strategic opportunities or investing in our business. Free cash flow represents net cash provided by operating activities, reduced by capital expenditures and capitalized software development costs, if any. The reduction of capital expenditures and amounts capitalized for software development facilitates comparisons of Datadog's liquidity on a period-to-period basis and excludes items that management does not consider to be indicative of our liquidity.

#### **Operating Metrics**

Datadog's number of customers with ARR of \$100,000 or more is based on the ARR of each customer, as of the last month of the quarter.

We define the number of customers as the number of accounts with a unique account identifier for which we have an active subscription in the period indicated. Users of our free trials or tier are not included in our customer count. A single organization with multiple divisions, segments or subsidiaries is generally counted as a single customer. However, in some cases where they have separate billing terms, we may count separate divisions, segments or subsidiaries as multiple customers.

We define ARR as the annualized revenue run-rate of subscription agreements from all customers at a point in time. We calculate ARR by taking the monthly recurring revenue, or MRR, and multiplying it by 12. MRR for each month is calculated by aggregating, for all customers during that month, monthly revenue from committed contractual amounts, additional usage, usage from subscriptions for a committed contractual amount of usage that is delivered as used, and monthly subscriptions. ARR and MRR should be viewed independently of revenue, and do not represent our revenue under GAAP on a monthly or annualized basis, as they are operating metrics that can be impacted by contract start and end dates and renewal rates. ARR and MRR are not intended to be replacements or forecasts of revenue.
